

QUALITY POLICY

For us is a priority that our products and services meet the needs and expectations of our customers, on that purpose our policy is based on the following criteria:

- Quality is part of our business strategy and is reflected in all the organization's processes.
- Quality prevails from the processes design taking into account the organizational context and the interested parties to determine the risks and improvement opportunities and to plan the actions to address those risks and opportunities.
- Our processes are subject to continuous improvement as a way to prevent deviations and increase potentials.
- The quality of our products and services is an essential instrument for increasing our competitiveness in the market in order to ensure our viability.
- We are committed with customer requirements and applicable legal and regulatory requirements, including regulations on Prevention of Occupational Risks and the Environment to identify, reduce and eliminate occupational risks and environmental impacts in all company processes.

The Management reflect this Policy by writing and intends that it must be known, understood and assumed by all members of the organization and that it be made available to any interested party who should know it. Likewise, the Management is committed to: ensure this Policy effectiveness by incorporating it into the organization's strategy, reviewing periodically the company's Quality indicators, and, being involved in audits and meetings on Non-Conformities and promoting corrective or continuous improvement actions that could be derived from them.
